EDUCATION

KGISL INSTITUTE OF TECHNOLOGY

BS IN ELECTRONICS

Aug 2022 | Coimbatore, TN

Cum. GPA: 7.40 / 10.0

Major GPA: 7.50 / 10.0

GOVT HR SEC SCHOOL

Pannimadai

May 2019 | Coimbatore, TN

7.9/10.0

COURSEWORK

- Python programming language
- Data Analyst
- Arts of electronics
- Manual testing
- Excel Sheet
- Web development

SKILLS

TECHNICAL SKILL

- Python.
- Node.js & Express.js.
- Microsoft Excel Sheet.
- HTML & CSS.
- MySQL.
- React.js & Vite.
- JavaScript.

FUNCTIONAL SKILL

- Front end.
- Analytical Skill.
- Probing Skill.
- algorithms.
- Project Management Skill

SOFT SKILL

- Teamwork.
- Communication.
- Time Management.
- Problem-solving.

PROJECTS

DATA CHATBOT | VEGROUTE AGRI TECH PVT LTD

Mar 2021 | Coimbatore, TN

- With the chatbot project, I will create a piece of software that can communicate and perform actions akin to that of a human.
- It is difficult for businesses to handle the surge of customer queries and messages without the use of chatbots.
- Our lives are surrounded by powerful chatbots that use AI and Machine Learning techniques – from messaging applications to smart wearables. Designing a chatbot is based on three principles: Artificial Intelligence, Data Science, and Machine Learning.

CROWDSOURCE FUNDING BASED ON BLOCKCHAIN TOKENS |

FINAL YEAR PROJECT & TEAM PROJECT

Mar 2022 | KGisl

- The crowdfunding dapp's purpose is to create an ecosystem where it will be effortless for everyone to start or support a campaign aiming to create new products or services. Crowdfunding dapp provides a crowdsourcing platform to raise capital by giving long-term incentive-sharing mechanisms on the "Internet of value".
- Crowdfunding is a decentralized application based on the Ethereum blockchain platform that allows users to invest money in the campaigns that interest them. By using blockchain as a Back end, we can make sure that the investors engage in low-risk support of new ventures and venture creators can gain more supporters globally making it easy for them to raise a large number of funds in a minimal time.
- Blockchain world At present, there are a lot of projects created by individuals or small-distributed teams that want to raise funds by issuing tokens to investors. The crowdfunding platform simplifies the idea of raising capital with help from the global public that might be interested in the campaign for an incentive that is profitable to the investor.

CHATX AI | OPEN AI BASED WEB API

Dec 2022 - Jan 2023

- ChatGPT is a powerful chatbot that uses a combination of rule-based and machine-learning algorithms to engage in natural language conversations with users.
- For the clone service, I will design and build a chatbot similar to ChatGPT, using the same OpenAI APIs and software engineer techniques.
- For the integration service, this may involve modifying or implementing new functionality. I will then integrate the chatGPT into your website, test it to ensure that it is working as expected, and make any necessary adjustments.

AWARDS & CERTIFICATES

2023	IBM	Data Analyst
2022	CISCO	PYTHON Programming Certificate
2021	2 st /50	Hackathon(Vegroute Agri Tech), Coimbatore
2021	Add-On	PCB designing
2020	Add-On	CS Art of Electronics
